The layout would have benefited from more formatting, headings and banners, as some of the pages look crowded. Just one level of Headings is used. Basic testing without extending to cover the CSS, and simple layout design without pseudo classes defined.
2331456/1	1.00	3	1.5	3	2	4	0	5	6	7	4	1.5	1.5	3	0	2	0	4	0	2	0	0	49.5	50	50			Topic is fine but you need to extend a bit deeper. Just one level of Headings. No image link. For each subsidiary page, there is no link back to the main page. Links to Pages one, two and three can't be opened because the links hard link to somewhere in the file store. Very basic testing. Simple layout design without pseudo classes defined.
