Mr. M. Kurt-Elli (Industrial Supervisor)
Mr. A. J. Mitchell (TCS Consultant)
Prof. K. J. Turner (Second Academic)

Since the last LMC the following has been achieved:

- The associate has established a regular pattern of attendance at the university. His MPhil supervisor is impressed by his technical knowledge and positive attitude. He is currently looking at JAIN for OO design methods. There is some concern about the high demands on him from company business and it is hoped that edNet will allow him more "space" for his academic work.
- The associate's pay changes have been implemented.
- EdNet have joined and attended the Department's Industrial Advisory Board.
- Stirling took part in the associate's 6-month appraisal.
- Stirling took part in a review of the associate's PDP.
- Equipment (laptop) for the associate has been ordered.

Issues to be addressed:

- The changes to the associate's pay needs to be reflected in the financial statement.
- Further equipment purchases should be discussed.

Future plans

- Plans to have the Vovida Technology operational at Stirling as well as EdNet.
- EdNet to present to staff (and possibly students) at Stirling.
